# SMARTALLY™
LABEL EDITION

LABEL LAYOUT SOFTWARE FOR CREATING CUSTOMIZED PACKAGE LABELS

Creating custom labels for package labeling is simple with SmarTally™ LE. Our unique and easy to use interface ensures that you can quickly begin creating labels to suit your unique needs in a matter of minutes.

SmarTally™ LE is a label printing program that gives you control over all aspects of the label design. From text formatting to complete automated operation, SmarTally™ LE has it all.

3rd Party Database Integration

If you already use label creation software but want some extra flexibility when laying out your labels then SmarTally™ LE is for you! SmarTally™ LE has the ability to import existing label databases so your existing products can be brought into the program so you don't have to recreate them.

For more information about SmarTally™ LE or our other products: phone: (250) 614-0204 Fax: (250) 614-0207 or visit us on the web at: www.microwestdesign.com

Product Features

- Fully Customizable labels with barcodes.
- Password level access.
- Remote reporting database capabilities.
- Customizable label sizes (7", 16", etc)
- Unique label layout for any product.
- Import other label databases.
- On-screen preview of label.
- Shift information and worker initials.

Tally and Reporting

SmarTally™ LE wouldn't be complete without a reporting package. Every package detail is tallied and stored in SmarTally™'s database for future analysis and reporting.

Automated Printing

SmarTally™ LE uses an integrated PLC communication scheme. When a new package arrives to be labeled the PLC passes the necessary information to the label software and the label is printed.
